[12:02] <gamerzilla1001> @DarksydePhil I highly doubt that businesses would be foolish enough to give us sub-par internet if we don't pay extra but the good news with net neutrality removed it would allow new businesses to step in and offer better internet deals! It would be economic suicide to screw over internet consumers and then add revenue would be weakened for providers forcing them to offer a decent regular and if you pay more you get premium its a win for the poor, the middle, and the rich

[17:16] <thecowsaysmool0122> Also, if you have the og xbox one hard drive see if you can use a faster hard drive
[17:16] <thecowsaysmool0122> that should help too
